smartstuff[™]
furniture for kids.

guys

Ask Paula Deen about her grandsons Jack, Matthew and Henry, and she'll tell you: "They're full of energy and they're all boy." So she knows first-hand the kind of furniture it takes to handle their rough-and-tumble lifestyle. Her guys collection is designed for kids just like them. It features classic styling, yet feels rustic and roughhewn in a distressed, deep Molasses finish. Its naturally mineral-streaked poplar wood is indigenous to the wetlands of Paula's beloved Savannah. Uneven planks—reminiscent of hand-planed, handmade wood antiques—give it the lived-in look familiar to any boys' room. And, as with each smartstuff™ collection, guys presents innovative combinations of great styling, safety-conscious construction, and game-changing smart features.
