

# TRIM & MOLDING PRODUCT GUIDE

## 1/2" x 78" Trim and Molding

**T-MOLDING** Used in doorways to join wood floors in two rooms. Also recommended when making the transition from wood floors to another floor of approximately the same height,

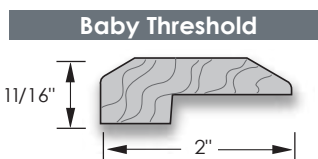

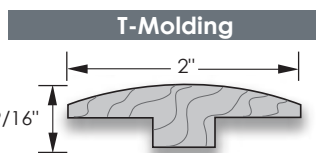

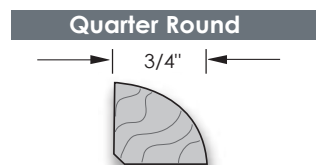

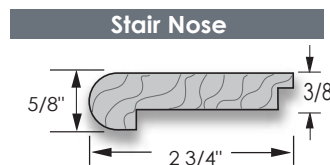

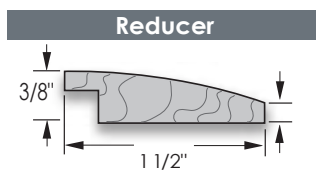

**STAIR NOSING** Adds a finishing touch to stairs and steps. This protective strip along the edges will catch the brunt of constant floor traffic while enhancing the overall beauty of the staircase or

**REDUCER STRIP** Is designed to create a perfect transition between floors of different heights, such as resilient

## 3/8" x 78" Trim and Molding

**THRESHOLD** Typically used in doorways to finish space where the wood floor ends. This molding is also designed to make different floors fit perfectly, such as wood floors and

**QUARTER ROUND** Creates a subtle blend between the floor and the wall. As with the wall base, it's nailed to the wall rather than
