

SECURITY CAR

The only backup
you'll ever need.

Anything can happen when you have an entire property under your care. Which makes it all the more reassuring to know that at least your security vehicles are predictable and reliable. With special security features and low maintenance costs, they're a smart investment in safety. If you want to protect and serve, this is one patrol in total control.

Cargo box

Whatever the job calls for, this 4.6 cubic foot rotomolded polyethylene cargo box with its 250 lb. payload capacity can handle it.

Hinged windshield

Durable and scratch resistant, our clear folding windshield features a contoured bottom designed to hug the front of the vehicle and keep the elements out.

RAM® Spotlight

Features a 70,000 candle power sealed-beam bulb in a durable, weather-resistant rubber housing. Includes the deluxe RAM® mounting system, 10' coiled cable and a 12 volt receptacle plug.

Fan/Heater combo

Featuring three adjustable vents, a Hi/Low switch for heat and fan, an AUX switch for control of optional accessories, and dual dome lights for added convenience and improved interior visibility during evening and night use.

Cabin & occupant space

Designed to provide optimum comfort and ease of use for drivers of different sizes. Swing open doors allow for a large window of entry and exit. The spacious cabin provides plenty of legroom and headroom.

Security strobe light

Our Security strobe light meets SAE Class 1 and California 13 requirements, is o-ring sealed for water resistance, and comes standard with Torus LED lights that have 21 flash patterns, and low amp draw. Available in Amber, Blue, Red, and Blue/Red Combination.
